## Instructed by Dr. Paul Goss

*Master Iridologist and Herbalist*

**Friday - Sunday**  
**September 26th - 28th**  
**Washington, DC**

### What is iridology?

Iridology is a non-invasive method of iris (eye) analysis used to determine conditions and levels of health within the body. Iridology dates as far back as Ancient Egypt when Imhotep "father of medicine" used iridology as one of his healing arts.

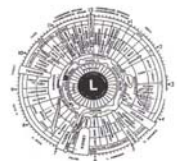

Through this ancient system it is possible to understand the whole person. You will learn to read signs of inflammation, congestion, degenerative and regenerative stages of organs and organ systems. Mental, physical, emotional, and spiritual aspects can also be interpreted. The eyes are truly the "windows of the soul".

By being made aware of their conscious and subconscious behavior patterns and influences of genetic memory, individuals are able to understand the origins of their conditions and afflictions, enabling them to positively transform their lives on all levels.
